

Galileo

<http://gardenofpraise.com/ibdgilil.htm>

Galileo was born	Copernicus' theory.
As a boy he was tutored at a monastery	the pendulum as it swung back and forth.
While at the University he studied	shows the earth at the center.
Galileo is called	in Latin, Greek, logic, music, and religion.
He performed experiments by	the earth was the center of the universe.
Before Galileo's time people believed	the earth moved around the sun.
Ptolemy and Aristotle believed	dropping objects from heights.
Copernicus published a theory that	the Father of Modern Science.
Galileo set out to prove or disprove	the sun moved around the earth.
A "geocentric" model	and put under house arrest for life.
After Galileo printed his book "Dialogue"	in Pisa, Italy in 1564.
Galileo was condemned for heresy	he was summoned before the Inquisition.
