

Cyrus McCormick

<http://gardenofpraise.com/ibdcyrus.htm>

Cyrus McCormick grew up	to reach his financial goal.
His goal was to	to bake 10 billion loaves of bread.
It took him twenty-six years	the International Harvester Company.
Before his invention	on a farm in Virginia.
In the old days they harvested grain	using a scythe.
McCormick invented the reaper	farmers could harvest 1-3 acres a day.
With McCormick's invention farmers could	it rained, but his reaper worked.
When he asked farmers to view his invention	they thought it was just entertainment.
On the day of a harvesting contest	earn a million dollars.
By 1850 McCormick	was selling 5,000 reapers a year.
McCormick's company became	harvest an acre in an hour.
His invention harvested enough grain in a year	when he was twenty-two years old.
