

## John Muir

<http://gardenofpraise.com/ibdmuir.htm>

John Muir was one of the first	when a file pierced his eye.
Muir along with President Theodore Roosevelt	when he was three years old.
Muir started to school	saved millions of acres of forestland.
When he was a child	and became president of the Sierra Club.
When he was growing up he was allowed	environmentalists in America.
John would get up at 1 AM	on month-long exploring expeditions.
He displayed his wooden clock	at the Wisconsin State Fair
When he left home his father	to Florida.
He lost the sight of one eye	his father moved the family to America.
John Muir made a 1000 mile trek	to leave the field work only when he had pneumonia.
In 1892 Muir created	gave him only \$15.
He led groups of club members	to invent and make things.
